

# PhD and MSc positions in Analytical Science

Recruitment is open to applicants for **PhD and MSc projects (biochemical analysis)** in the research group of Dr Pawel Urban, in the Department of Applied Chemistry, National Chiao Tung University (Taiwan). For PhD projects, we seek candidates with prior experience in microfluidics, mass spectrometry, separation science, microbiology, or biochemistry-related research.

To apply, send your Curriculum Vitae, list of publications, and names of three references to Dr Pawel Urban (email: [plurban@nctu.edu.tw](mailto:plurban@nctu.edu.tw)). Internal application deadline is 31<sup>st</sup> March, 2012. Overseas applicants are encouraged to consult the Office of International Affairs at the NCTU (<http://www.nctu.edu.tw/english/>) for information about the scholarships.

## ***For those who are curious about the world***

Our focus areas include microscale biochemical analysis, forensic chemistry, mass spectrometry, and separation science. Our research is a combination of instrumental developments, integration of on-line sampling tools with mass spectrometry, and application of the newly developed methods to biologically relevant problems.

Further information can be found on the group website: <http://www.UrbanLab.tw>

The **National Chiao Tung University** is a public university located in Hsinchu. It is recognized as one of the most prestigious and selective universities in Taiwan. The main campus is located right at the center of the Hsinchu Science Park, Taiwan's national research center. The area is commonly referred to around the world as the "Silicon Valley of Asia". (information from Wikipedia) **Hsinchu City** is conveniently located in the proximity of the Taiwan Taoyuan International Airport (Taipei): travel time – approx. 45 min.
