

Tempus 6th Call

Following to the 6th Call of the proposal submission of Tempus IV projects, I would like to let you know that my Department (Tourism Management), as well as my Faculty (School of Management and Finance), is interested in participating in various projects within the Tempus framework.

I would also like to let you know that my Department and my Faculty have the potential and the willingness to participate in projects whose subject does not only concern Tourism but also other aspects of economic and social development and science.

I am attaching certain information about my University as well as a brief CV of mine so you can have a clearer picture about us.

My Department was involved in the recent past in two projects and is interested in expanding its scope through new projects. The projects we were recently involved are the INTOUR project (<http://www.intour.aspu.ru/>) and the ESHA project (<http://www.tempus-eshu.eu/>).

My University has a very strong relationship with the labor market and with consultant companies (for example Deloitte: http://www.deloitte.com/view/en_GR/gr/index.htm), several professional associations (e.g <http://www.rodosisland.gr/el/rha.html>), hotels (e.g. <http://www.kolymbia.gr/>) and training centers which promote foreign languages and communication.

We are particularly interested in working with Universities of your country and participate in the projects they are planning as partners (or in any other capacity may be deemed best). On our part, we could contribute by providing any necessary information upon request.

I would like to ask you to inform the Universities of your country of our interest to collaborate with them.

We look forward to hearing from you and we hope for a fruitful collaboration.

Best regards,

Michael Koniordos,

Professor of Economics
Department of Tourism Management
School of Management and Finance
TEI of Piraeus
