In order to pass the complete exam, it is necessary to have a positive grade in both exams (60%, 18 points).

Students who do not have a positive grade in both exams (60%), must write the entire exam during exam terms in February or after.

If a student has achieved a positive grade in the first exam but did not write the second exam, he must also take the entire exam.

For a higher grade, students who are at most 2 points short of a higher grade may participate to an oral exam. In this case, the student is asked to contact the teacher via e-mail.
