Postdoctoral fellowship in Photochemistry

Tampere University of Technology (TUT) in Finland is seeking to fill several postdoctoral fellowship positions. The research work will be conducted in the existing research groups at TUT. One of the most well-known and productive research groups in TUT is the Supramolecular Photochemistry Group (SPC-Group)

The SPC-Group invites applicants from different areas of photochemistry, synthetic chemistry, solar energy production, and spectroscopy to contact the Group leaders (see below) of the SPC-Group for more information.

The call is open to postdoctoral researchers who

• hold an applicable doctoral degree (the dissertation must be submitted and proof must be available by the application deadline)
• have completed their doctoral degree no longer than 4 years prior to the deadline (15 Feb 2011–15 Feb 2015). For applicants with children, 1 year per child will be added to the permitted duration.
• have not lived in Finland for longer than 12 months during the last 36 months before the deadline

The position is filled as soon as possible as agreed after beginning of April 2015.

The duration of the contract will be two years.

Salary is in the range of 2,900 – 4,100 Euros/month, depending on the researcher's experience.

The closing date for applications is 15 February 2015. Applications should include a Curriculum Vitae including the list of publications, and a research plan (max 5 pages).

More information about the SPC-Group: http://www.tut.fi/en/about-tut/departments/chemistry-and-bioengineering/research/spc-group/index.htm

and information regarding the required documents: http://www.tut.fi/en/about-tut/careers-at-tut/attachments-to-applications/index.htm

Interested applicants, please, contact as soon as possible for more information and advice:

Professor Helge Lemmetyinen or Professor Nikolai Tkachenko
