

lek
a Sandoz company

Student workshop:

- How to develop and launch a biopharmaceutical product

A visit to Lek, a Sandoz company, development facilities.

Who may apply?

We invite regional university students in the natural sciences, from last year's undergraduate, master's, doctoral and post-doctoral study programs to apply for the Regional BioCamp 2016.

The event will be held in English and English fluency is required.

A total of **35 selected students** will be chosen based on their academic excellence, professional experience and extra-curricular activities.

The two winners of the Regional BioCamp 2016 will participate at the Novartis International BioCamp 2016 in Basel, Switzerland.

Participation and boarding will be free of charge for students; the participants must cover only their own transportation costs.

How to apply?

Students can apply on the following link: www.lek.si/biocamp. The application should include their CV, recommendation and motivation letter.

We welcome applications between **January 11 and February 29, 2016**. Only complete applications will be considered.

Selected students will be informed via e-mail in April 2016.

For more information please visit: www.lek.si/biocamp or contact us at: biocamp.lek@sandoz.com

We are very pleased to be able, with your cooperation, to offer best and most promising students the opportunity to gain a direct insight into the world of research and the international business environment within the pharmaceutical industry.

We appreciate your judgment and your efforts with regard to this project and we thank you sincerely in advance.

Best regards,

Dr. Darja Ferčej Temeljotov
Chair Organizing Committee of Regional BioCamp

Dear Sir/Madam

Regional BioCamp is a three day seminar for top graduate and postgraduate students in natural sciences, who are interested in pursuing a career in pharmaceutical industry.

BioCamp participants get an insider's perspective on the challenges and opportunities in biotechnology, chemistry, pharmacy today, through seminars led by acknowledged experts. Workshops are designed to give participants the tools they need to become successful managers and entrepreneurs.

We are sending you Regional BioCamp 2016 posters. We kindly ask you to use them for promotion of the event.

Additionally, we cordially invite you, using your own judgment, to offer your best and most promising students the opportunity to participate.

What is BioCamp?

Regional BioCamp offers participants an excellent opportunity to:

- Gain insight into the professional and business environment of the global pharmaceutical industry
- Learn how science and practice, the profession and business connect for the benefit of the patient
- Interact with key experts and leading managers from Lek, Sandoz and Novartis
- Gain first-hand experience in starting up and managing a company
- Explore career opportunities in different areas of the pharmaceutical industry
- Network with talented students from other countries

From the program of Regional BioCamp 2016

Keynote presentations by leading scientists from academia, Lek, Sandoz and Novartis:

- New developments in the generic pharmaceutical industry and biosimilars
- Worldwide experience in biosimilars development
- Starting a company
- New treatment strategies for respiratory disorders
- Patient view on treatment opportunities
- Career opportunities in the pharmaceutical industry
