20th International Chromatography School

Registration fee free addition

(Official language will be English)

SECOND CIRCULAR

University of Zagreb Faculty of Chemical Engineering and Technology

18 - 19 September 2025, Zagreb

20th International Chromatography School

International Scientific Committee:

Danijela Ašperger (CRO) Sandra Babić (CRO) Tomislav Bolanča (CRO) Matija Cvetnić (CRO) Hurija Džudžević-Čančar (BIH) Tina Kosjek (SLO) Dragana Mutavdžić Pavlović (CRO) Šime Ukić (CRO) Joachim Weiss (GER)

Organizing Committee:

Danijela Ašperger (CRO) Bruna Babić Visković (CRO) Sandra Babić (CRO) Tomislav Bolanča (CRO) Matija Cvetnić (CRO) Katarina Marija Drmić (CRO) Tanja Ivančić (CRO) Slavica Kos (CRO) Dora Lastovčić (CRO) Viktorija Martinjak (CRO) Dragana Mutavdžić Pavlović (CRO) Kristina Tolić Čop (CRO) Šime Ukić (CRO) Luka Večenaj (CRO)

Symposium Secretariat

Šime Ukić University of Zagreb Faculty of Chemical Engineering and Technology Department of Analytical Chemistry Trg Marka Marulića 20 10000 Zagreb, Croatia Phone: +385 1 4597 218 E-mail: <u>sukic@fkit.unizg.hr</u> Web: <u>www.fkit.unizg.hr</u>; <u>https://www.hdki.hr/hdki</u> Dear colleagues,

It is my great privilege and pleasure to invite you at 20th ICS which will be organized at 18 – 19 September 2025 in Zagreb at Faculty of Chemical Engineering and Technology, University of Zagreb (<u>www.fkit.unizg.hr</u>). The main goal of ICS-s has always been to bring novelties from the field of chromatography used for both scientific and routine analysis purposes. Therefore, I am sure that each participant will find this 20th ICS beneficial for their daily chromatographic practice.

Furthermore, it is well known that education plays one of the most important roles in the prosperity of particular expert, business economy of the particular company as well as for the global society. Therefore, it is essential to organize education course available to large number of participants. Organizing committee of International Chromatography School recognizes these needs and with making **ICS totally free of charge** we are hoping that our small contribution might make the difference.

Deijela App

President of the Organizing Committee Prof. Danijela Ašperger

Scope

Thousands of scientists and engineers have worked on the development of chromatography over the last several decades. The result is one of the most versatile techniques that we have in chemical science today. The development is still going on with thousands of papers and many books being published every year. As an expert in chromatography each participant also need to understand the physico-chemical principles of the chromatographic process and to learn how they are implemented into their daily practice.

International Chromatography School has been providing an ideal forum in the last twenty years for chromatographers from different regions of Balkan Peninsula and neighboring countries. The practice of chromatography is sufficiently widespread such that discussions on diversity of applications, qualitative and quantitative data as well as quality assurance data acquisition become extremely important that they are considered worthy of inclusion in peer reviewed literature. We find above arguments compelling enough to organize ICS once again.

International Chromatography School bridges the gap between the practitioner and chromatography science. It is intensive, focused on both theoretical and practical aspects of chromatography. More importantly, **International Chromatography School is independent and provides an unbiased education based on scientific facts and long experience.**

20th ICS is intended to

The course is intended for analytical chemists with previous experience of chromatography and a good knowledge of the basic concepts of chromatography:

- laboratory executives,
- routine IC users,
- quality managers,
- scientists,
- Ph.D. students.

For advanced users, e.g. experts responsible for the chromatography equipment in a laboratory, working with troubleshooting or developing standard methods, this School will bring understanding of chromatography to a higher level. Moreover, it will provide new insights and tools that will be valuable for advanced practice. The university teachers will find the course of great value when preparing lectures and laboratory experiments.

Learning outcomes

Participants will acquire a good understanding of the fundamentals of chromatography and learn simple tips and guidelines to make chromatography practice easier and more efficient. The obtained information will help them to demystify chromatography instruments. It will be shown that majority of the perplexing and frustrating problems have simple and logical solutions and that most of these problems are preventable. The techniques learned from this course will make participant more effective at daily routine chromatography practice.

20th ICS Award Certificates

- Attendance Certificate:
 - Might be used to prove participation in long life learning process
- Inter-laboratory proficiency test certificate (for ion chromatography only)
 - Might be used for accreditation purposes

Registration

The registration for 20th ICS is available online. Online registration form can be found at <u>https://www.fkit.unizg.hr/ICS/registration</u>. Please, press the **Register Online** button and fill the required fields. The registration deadline is **extended to** <u>August</u> <u>20th, 2025</u>.

Registration fee

Registration fee is free of charge!

For companies only, registration fee or sponsorship is obligatory. We are sending sponsorship options to all interested parties upon request. All sponsors are required to sign a contract with the Faculty and in that case, please contact the president of the organizing committee, Danijela Ašperger (diva@fkit.unizg.hr).

Sponsorship will cover attendance to the scientific and education lectures, commercial presentations, participation in proficiency test, related materials and coffee break refreshments.

Lunches are not included in registration fee.

Accommodation

Bookings should be made directly with the hotel. Organizing committee will not arrange the accommodation for the participants.

Sponsorship opportunities

Approximately 150 participants are expected to attend 20th International Chromatography School, mainly from Croatia or WBC. As always the quality of the program is an imperative. Therefore, eminent scientist will join 20th ICS as lecturers to share their valuable experiences while representatives of production companies might offer practical solutions of particular problem. We have already confirmed more than twenty eminent lecturers from different institutions. Keeping in mind that this is *the only school in the region covering the field of chromatography*, we would be grateful if you could help in sponsoring our event. Your contribution will straightforwardly support the goal of the ICS in advancing the collaboration and networking. The organizing committee will make sure that your company is well presented providing adequate exhibition stand, poster presentation space and commercial add space in the materials which will be distributed to all participants.

Thank you sincerely for your generous contributions and we are looking forward seeing you in Zagreb.

With best regards

Serijela App

President of the Organizing Committee Prof. Danijela Ašperger

Additional information about sponsorship opportunities is available at contact address:

Prof. Ph.D. Danijela Ašperger, University of Zagreb Faculty of Chemical Engineering and Technology, Trg Marka Marulića 20, 10000 Zagreb, Croatia Phone: (+385) (0) 98 696 745 Fax: (+385) (1) 4597 250 E-mail address: <u>diva @fkit.unizg.hr</u> The Organizing Committee is very grateful to the so far confirmed sponsors for the support (in alphabetic order):
