

Procter & Gamble - Engineering Intern

Procter & Gamble (P&G) is a global leader in consumer goods, dedicated to improving the lives of consumers through innovative products and brands. With a strong commitment to sustainability and community engagement, P&G operates in over 180 countries, offering a diverse portfolio of trusted brands that enhance everyday experiences.

We invite enthusiastic **students** to join our dynamic team at the ***Brussels Innovation Center***.

Internship Description:

We are offering a unique **13 weeks to 1-year internship** at our **Innovation Center in Brussels**, where you will have the opportunity to work on real projects, taking personal responsibility and ownership from Day 1. This internship provides a fantastic chance to gain hands-on experience in a leading global company while collaborating with a diverse group of international students.

What We Offer:

- **Attractive remuneration** (€2,414.00 brut/month), prorated 13th month based on the months worked during your internship period;
- A **flexible benefits plan** to customize to your personal needs and **kilometer allowance/public transport reduction**
- Access to **Benefits at work platform**
- An **international and diverse work environment** that fosters collaboration
- Valuable **networking opportunities** with peers from around the world
- **Personal ongoing training** and 1-to-1 coaching to support your professional growth

- **A vibrant and modern working environment, supporting employees' wellbeing:** company restaurant, on-site Café, on-site fitness room and regular group sport activities, flexibility in terms of working hours, employee assistance program, parking facilities both for cars and bikes, shower facilities, etc.
- Engaging **non-work and work-related activities** with fellow interns
- An option to complete your **master's thesis** with us

We Are Looking For:

- You are an **Engineering student at Master or PhD Level** in: Mechatronics/Controls/Chemical/Process/Mechanical/Industrial/Electrical/Environmental;
- You will still be **enrolled at university** throughout the internship;
- You are available for **at least 13 weeks (3 months)**;
- You are **proficient in English**, and have skills such as **technical curiosity, creativity, innovation, initiative, communication, leadership and the ability to work with others.**

Work location: Brussels Innovation Center (Central/Global Engineering Department) - Brussels, Belgium

How to Apply:

Interested candidates are invited to apply online at www.pgcareers.com by searching for "Engineering Internship – Brussels, Brussels Capital, Belgium."
