Klaudia Paljar is currently employed as a professional associate at the the Faculty of Chemical Engineering and Technology, University of Zagreb (FCET). She graduated in 2009 from the same Faculty. In 2010 she joined the Department of Physical Chemistry, FCET, as an assistant in Physical Chemistry Lab. In parallel with her teaching activities she was involved in the research project “Bioceramic, Polymeric and Composite Nanostructured Materials” (2010-2014).
