Sebastijan Orlić is currently employed as a senior R&D pilot engineer at TAPI R&D Pliva Croatia. He graduated in 2005 from the Faculty of Chemical Engineering and Technology, University of Zagreb (FCET). After graduation he joined the Department of Inorganic Materials and Technology, FCET, as a doctoral student, assisting in undergraduate and graduate laboratories. He has been involved in the research project “Bioceramic, Polymeric and Composite Nanostructured Materials” and gained his Ph.D. in 2012 from the University of Zagreb defending his Ph.D. thesis entitled: Biomimetic synthesis approach to highly porous hydroxyapatite bioceramics, under the supervision of prof. Hrvoje Ivanković. He served as the head of the Sports section of Alma Matris Alumni Chemicae Ingeniariae Zagrebiensis (AMACIZ).
