Graduate Study Programme
Chemical and Environmental Technology

Starting from Academic Year 2019/2020
• in the field of technical sciences
• two academic years
• four semesters
• 120 ECTS credits

STUDY PROGRAMME OBJECTIVES
• develop deep awareness of environmental challenges faced by industry and society
• acquire specialist expertise in development and optimization of sustainable chemical technological processes minimizing their environmental impact
• apply problem solving skills to complex multidisciplinary challenges using advanced chemical and environmental engineering tools and concepts
• study and apply in practice innovative and emerging chemical technologies to solve global environmental challenges
• adopt project planning and innovation management skills required by contemporary business
